EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>

Regular updates will be posted as they are available.

Subject: Reporter requesting comments for VICE article

Dear Mr. McGrath,
Hope this finds you well. I am a health and environment reporter, currently working on a story for VICE News on the Colorado gold mine wastewater spill. I was wondering if it would be possible to talk to you about the spill, how it happened and what its consequences could be. A short telephone interview would be very helpful.

My deadline is at 3pm ET. Please let me know if you need any other information from me.

Thanks,
Esha
